Profiles

●  [Vijayrj0007](#)

●  [vijay kumar](#)

Summary

● I'm Vijay Kumar Pandit, a third-year B.Tech Computer Science student at UCET College, Vinoba Bhave University. I'm passionate about solving problems through technology and specialize in Java, DSA, web development (HTML, CSS, JavaScript), and Android development (Kotlin). I enjoy building projects, learning new technologies, and delivering innovative solutions. I'm eager to connect with professionals, collaborate, and grow in the tech industry.

Experience

Projects

● PASSWORD MANAGER ANDROID APP JANUARY2025

Its an app which manages our any accounts id and password. It is very secure only admin can access this data . It is based on SQLite database management system using room database. It can create a local database in your own phone to store data.

● College Website (UCET VBU)

We believe this platform can serve as a central digital hub for students, faculty, alumni, and administrators, making academic processes more efficient.

“The main objective of our project was to design and develop a **user-friendly, responsive, and functional website** that connects the **students, faculty, alumni, and administration** of our college on a single digital platform.

Our goal was to ensure **easy accessibility of information, smooth communication, and proper management of academic resources.**”
